### BOLTON COMMUNITY PRACTICE PATIENT ADVISORY GROUP (PAG)

### Online Face to Face Appointment Bookings

BCP have announced the opening of online face to face appointment bookings for the Nurses, Health Improvement Practitioners, and Assistant Practitioner for blood tests, blood pressure and annual review and nursing appointments.

Please ensure that you book the correct appointment as anyone booked an incorrect appointment slot will have their appointment cancelled and you will need to go on and rebook your appointment. The slot types are specified below:

#### Blood Appointment

For booking blood test only - blood appointments please only book into the blood appointment slots (to ensure the blood tests are taken before the courier collects the samples)

#### Nursing Appointment

For booking annual reviews, or a nursing procedure that you have been invited to book. Alternatively, if you do not have access to online bookings, please ring the surgery to book in for your annual reviews and nursing appointments.

#### GP and Advanced Nurse Practitioner Appointments

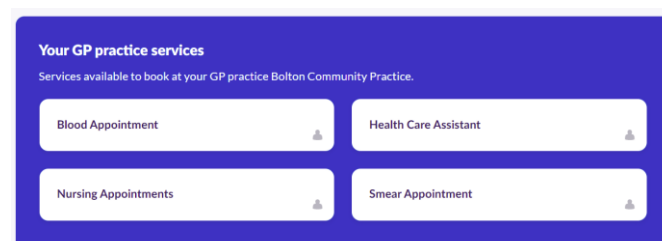

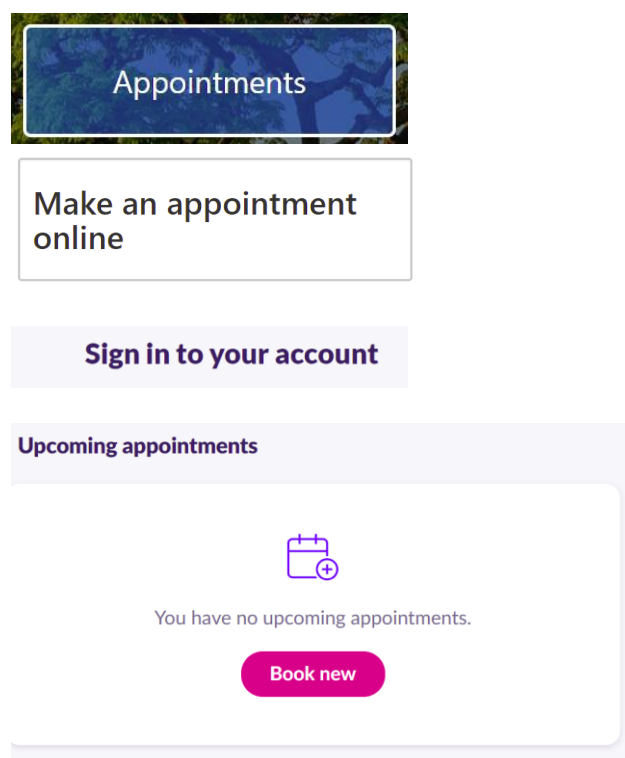

Please continue to use the online consultation forms. (If you are unable to use the online consultation form the admin team will complete the form on your behalf)

### Hay Fever Medication

Hay fever medication should be purchased over the counter, [Fexofenadine](#) is now available over the counter. The only exceptions are Severe Hay fever or Under 18 years of age who require a steroid nasal spray.
