

Bolton Community Practice – Patient Bulletin

6 August 2021

Issue 18

BOLTON COMMUNITY PRACTICE PATIENT ADVISORY GROUP (PAG)

Flu Vaccinations

Flu vaccination clinics are now on the appointment system, and all are bookable on the my GP App Patient Access or the online services.

<http://www.boltoncommunitypractice.nhs.uk/>

There are different dates and appointments dependent on patient age:

- Patients aged 65 and over should book an 'Aged 65 and over Flu Vaccination' appointment.
- Patients aged 18-64 should book an 'Aged 18 to 64 Flu Vaccination' appointment.

Please make sure you book the correct appointment for your age group.

For housebound patients home visits are also bookable online. These are dependent on age and should be booked for each site. These are bookable for the date only, not a specific time.

Nursing Home visits will be done week commencing 13 September as soon as the flu vaccines arrive.

You will be eligible for a flu vaccination this year if you are in any of the following groups:

- A clinical at-risk group
- Pregnant
- Aged 50 years and over
- Living in a long-stay residential home
- Carers
- Locum GPs
- Close contacts of immunocompromised individuals
- Frontline health and social care staff

Sarah will be sending texts out to patients asking them to book via the App where possible.

However, you can book your flu vaccination now, especially if you are 65 and over.

Clinic dates at each site are listed below:
